## Swim Lessons

While session 2 of group lessons are already underway, private swim lessons are still available!

Private lessons are great because...

- Swimmers get individual attention from their instructor
- Private lessons allow the instructor to tailor the lesson to the student
- Lessons are scheduled at a time that is convenient for you

Who benefits most from private lessons?

- Children who require more attention
- Older children who have a fear of water
- Children with special needs
- Kids seeking individual stroke or technique instruction
